Re: OPRA request

Dear Mr. Chernaski:

I am in receipt of your OPRA request dated May 2<sup>nd</sup> and received by the Business office of the Hamilton Township Board of Education on May 4, 2016 requesting the following information:

*...The organization "Code for Trenton", is trying to locate the borders within Hamilton Township for elementary, middle and high schools. I realize these maps change, the most recent (or future) map available would be appreciated....*

Attached, please find generalized boundary documents for each of the district's schools. It is important to note that this information does not provide definitive information regarding what streets map to each of our schools. The offices of Elementary and Secondary Education research each inquiry they receive to ensure people are provided the most accurate information regarding homes and the schools their children are assigned to.

If you have any further questions, please do not hesitate to contact the Business office.

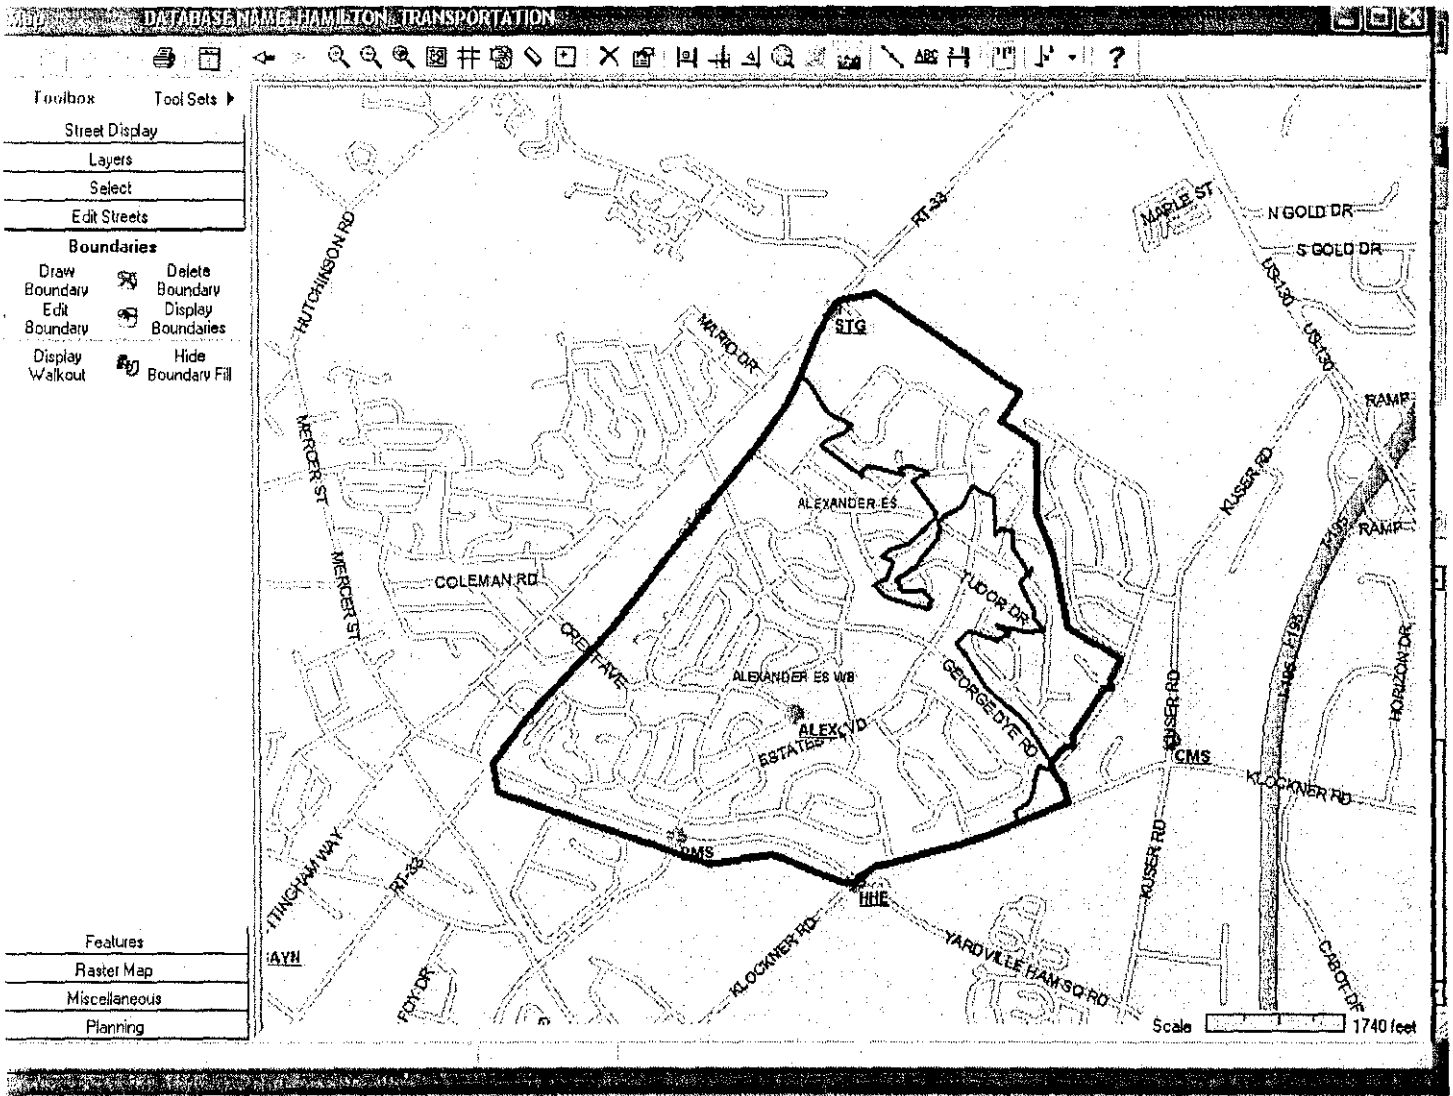

Sincerely,

Katherine Attwood  
Records Custodian
